FOREWORD

An annual staff each year strives to present a review of the year's activities by some new, unusual method. This method is practically always some original scheme, developed and projected through constant striving of staff members trying to produce an edition, much bigger, better, and more interesting than ever published before. Through the year, piles of pictures and copy become that inspired idea until one day, all the vague dreams have either become reality or have been disregarded completely, and the final product stands as a shining merit of achievement.

The problems, the promises, the headaches, the difficulties are all dissolved when the finished publication lays before us; the evidence of our successfulness becomes a challenge for succeeding staffs.

THE
SENIOR

CLASS HISTORY

Oh, look at that huge television screen—and what's that big knob on it? Why it says "time dial." My, what they won't think of next. Let's turn it and see what happens.

There, it's set at 1938. Oh, look it's Miss Evans and the kindergarten class. Oh, who's that cute little girl with all the blond curls? It's starting to fade out though. Let's set it again, this time at 1944.

Why, there's the same kindergarten class, all grown up now (almost) and ready to enter high school. Goodness but they are respectful to the Seniors. I wonder if we can see this class in 1946, Yes, there they are great big freshmen. Don't they look smart. The class is larger with an addition from the parochial school. Look at that funny red-headed teacher handing out detention slips. My, time goes quickly! They're Sophomores now, and all, well maybe it's the screen, but all their heads look bigger.

Well let's turn to 1948 now; they ought to be Juniors, and yes, MOST of them are. Goodness what happened, was that Milton Berle? Oh, now I see it's the big event of the year, the Junior Senior Prom, and that's the Master of Ceremonies. Gee, going through hardly takes anytime on television—why, they're Seniors now, and look at them scuttle. Are all Seniors that busy? Are all—well, wouldn't you know here comes the commercial— . . . "This program was brought to you through the courtesy of the Class of 1950. We claim to be the best class that has ever been thrown out of old N.-Ca-Hi. We might not be the best class in speech work, we might not be the best in music, we might not be the best class scholasically, or even athletically, but we are the best spirited class.

No other class can make that statement!"

CLASS HISTORY

JUNIORS

The whistle has just blown. We're Juniors now and in the third quarter of the game. We started the first quarter without a worry in the world but we were slowed up by a few fouls in algebra and science.

The second quarter followed after a short time out for vacation. It was quite a bit like the first, but we were getting used to the game now and our team showed fine co-operaion and good sportsmanship under an expert coaching staff.

This quarter our coaches are Mr. Dorland and Miss DePodesta. We got off to a fine start with our Junior Play, "Autumn Story" which was a huge success. Our prom is sure to reach all its great expectations.

Of course it hasn't been all smooth playing. Chemistry and history throw us off. But we're shooting for a high score in scholarship.

With all its social activities, participation in sports, and in scholarship, our team has been kept busy, but when the final gun goes off, everyone can be proud of the game the class of '51 played.

CLASS HISTORY

SOPHOMORES

Last year we chose a ship as our means of transportation through high school.

Onward our ship, flying the orange and black ensign, plunges through the seas of education after having conquered the sea of Freshman life. Avast, no longer call us lubbers, for with Mrs. Young and Mr. Wright as coxswains, we sturdy sailors of '52 now are cramming the furnaces of knowledge with conjugated Latin verbs, biological terms, and historical events.

We shout, "Give way!" and up the chimney rises ambition and energy to move steadily onward. Besides our chores, all hands join with the spirit of adding nobility to our flag in many activities consisting of music organizations, scholarship, sports, and speech. Our night watch is spent very enjoyably with the Saturday Nighters and at ball games.

We're headed for the Junior Sea, and we won't stop until we enter the Harbor of Success!

The class of '53 has been very active in all phases of high school life.

Our social life was taken care of by the Saturday Nighters, and the Sophomore and Freshman parties.

Some of the freshmen have started out in the musical field by going in to the band, orchestra, and glee club.

Many of us are planning to go to college and are taking the college preparatory course.

The boys of our class have a very good chance of being on the Vikings varsity in the near future. We have thirteen boys out for basketball and ten out for football. The rest of us attended the games and rooted for our team.
This will show that we are starting out right.

The thunderous applause that rang out in our auditorium November 23, 1949, was for the Junior Class play "Autumn Story." The entire action of the play took place in the living room of Eloise Baxter, a spinster. Eloise was forced to take an orphan child into her home by her sister, Edith Meadows. The doctor, John Travis, who lived at the Baxter home became very attached to her and gradually Eloise succombed to Elnora's charms. The play ended with Dr. Travis proposing to Eloise and giving to Elnora and her a "shoulder apiece."

The Junior Class displayed great dramatic ability in a difficult play which required top flight performances from everyone.

The Dramatic Club has done it again. On February 24, this talented group presented "A Date With Judy," a three act comedy adopted from the popular radio program of the same name, written by Aleen Leslie.

The plan centers around the attempts of sixteen year old Judy Foster to become queen of a big dance her club is giving. To do this she must raise enough money to beat her "least favorite person," Tootsie Whiteman. Judy decides to enter her family and friends in various contests, thereby starting a chain of very funny circumstances. Failing to win any contest money Judy writes a confession which causes a serious mixup. Next she and her friend Mitzi turn to acting as the perfect solution for getting money. But Oogie Pringle, Judy's boyfriend, finally solves her problem in the last few minutes of the rollicking comedy.

Coaches

This year the Vikings were fortunate in having four very able coaches. Mr. Swope started the athletic ball rolling, with the start of football. The gridders turned in a good season considering the damaging factors of inexperience and injuries. The season ended with four victories and six defeats.

With two weeks interval, basketball started under the direction of Coach Jim Dorland, a former Mount Union graduate. The Vikings enjoyed a successful basketball season, winning 14 out of 20. The tournament trail ended before it started when the Norton Panthers throttled Viking ambitions.

Coach Willard Wright's reserve basketball team also had a successful season and gave Viking boosters a chance to see what kind of material will be presented in future years.

The Freshman, Seventh and Eighth grade teams, coached by Joe Esmont and Bob Sonnhalter respectively, showed great promise for future years. All of these teams entered the Metropolitan tournaments and gave a good showing.

Baseball and track this season were under the direction of Mr. Dorland and Mr. Wright, both having good seasons in these endeavors.

Announcers

A frequent scene at the North Canton Memorial Stadium during September and October ,on Friday and Saturday evenings was that of Ray Mummery and Daryl Fondriest setting up the public address system. Both of these fellows followed the teams up and down the sidelines during the home games.

These two seniors also announced for the annual staff during picture taking days.

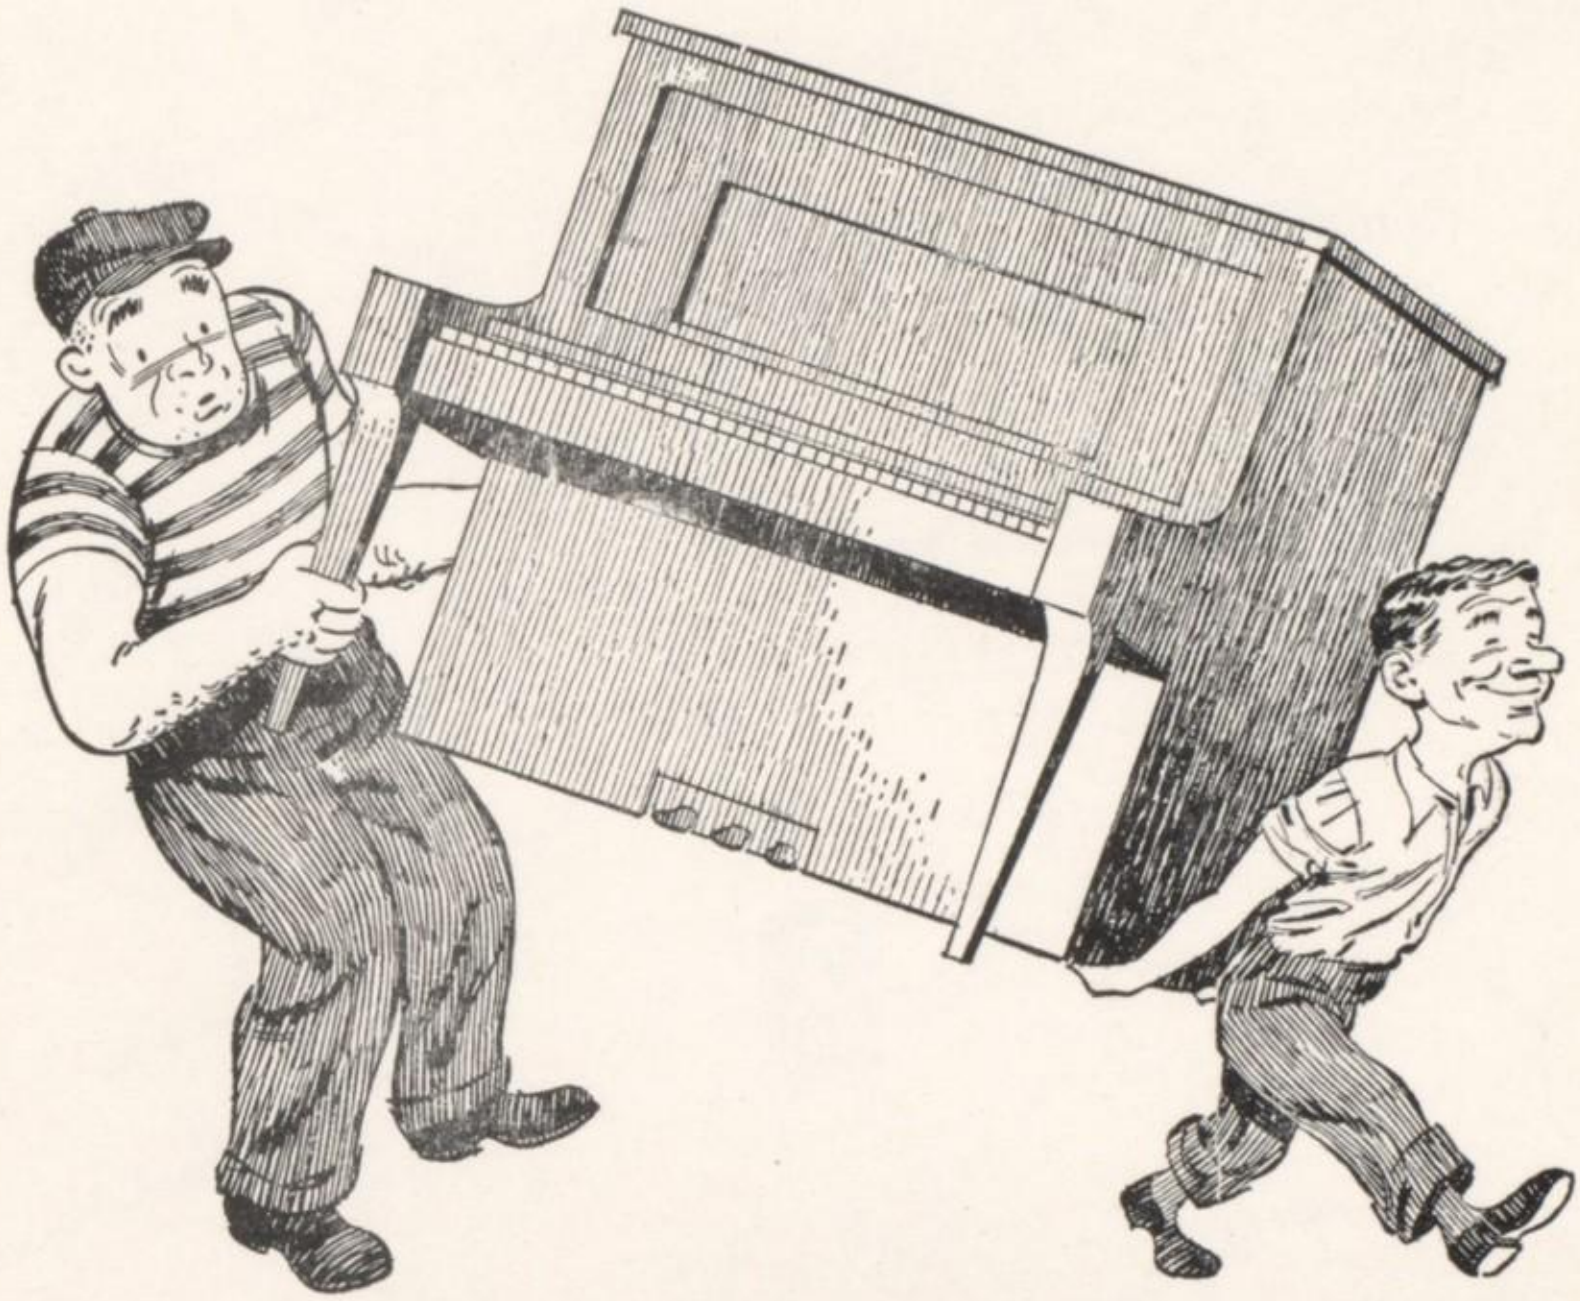
It's your RIGHT!



If you want to be a piano mover, that's your right. If you'd rather play it instead, that's your right too. Here in America you are free to choose the kind of job you want and the city you want to work in. And if you can do a better job than the next fellow — you're free to go on up the ladder. It's one of your rights that is *guaranteed* under the American system.

That's not true everywhere in the world. In some countries, everyone is told what job to do, told where to work, told how much he can make — by the government.

Even in America, some people are trying to whittle down this right — trying to make your decisions for you.

Don't let them do it. You can stop them by standing up for your rights — whenever and wherever someone tries to take them from you.

At Timken, a man can go as far up the ladder as his ability and ambition will take him. And we give him a boost with special training programs.
We want to preserve and advance the rights of the free American working man.
